

LES PERSONNAGES DU CHÂTEAU de LUNÉVILLE

Nous vous proposons de fabriquer une série de personnages, ceux qui vivaient dans le château de Lunéville. Ce faisant vous apprendrez à les reconnaître et à comprendre ce qu'était la vie au Château.

Les historiens estiment qu'environ 400 personnes y vivaient. Qui étaient-elles et comment les reconnaître ? Dans quelles parties du château les retrouvaient-on ?

Tout d'abord le duc de Lorraine et sa famille dans ses appartements ; ses amis, les nobles qui l'aident à gouverner la Lorraine, les responsables des finances, de la justice et puis les chefs militaires... également dans la cour d'honneur.

A leur service, ceux qui s'occupent de leurs toilettes et de leurs coiffures. Ceux qui leur tiennent compagnie ou éduquent leurs enfants... à vous aussi de chercher quelle était la place de ces derniers dans cette société.

Au château, on organise aussi des spectacles, des concerts, des jeux. Des prêtres s'occupent des offices religieux.

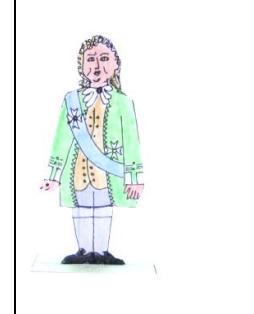

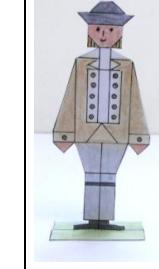

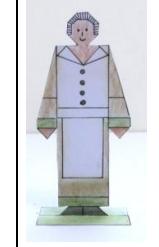

De nombreux serviteurs veillent à l'organisation de la vie au château : préparation des repas, chauffage des salles, entretien et nettoyage... Des palefreniers s'occupent des attelages, des gardes surveillent les entrées. On les retrouvera dans la cour des communs. D'autres serviteurs s'occupent de l'accueil des invités ou des personnes convoquées par le Duc.

Le fermier et le bûcheron seront placés hors de la maquette.

En parcourant la suite des découpages que nous vous proposons, nous indiquerons les signes qui permettent de les reconnaître et vous indiquerons précisément où les placer dans le château.

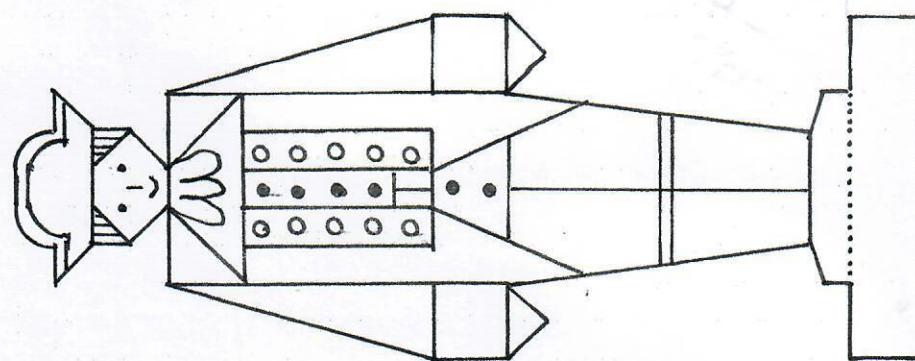

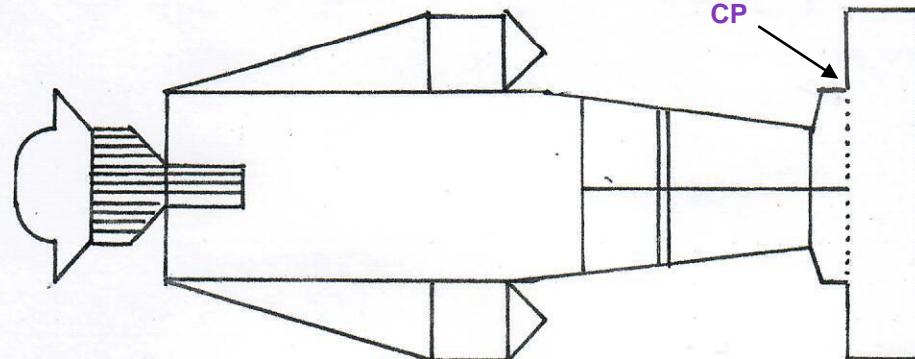

Il vous reviendra de compléter notre présentation par des recherches documentaires pour apprendre à reconnaître les portraits des ducs, ceux du roi Stanislas, pour comprendre l'histoire locale. Pour cela consulter « les Cahiers du Château » au musée de Lunéville. (N'oubliez pas le Duc Léopold, la duchesse Elisabeth Charlotte, Voltaire, Madame du Châtelet).

Ce travail peut servir de tremplin à une présentation de ce que furent les trois ordres. On est à la veille de la Révolution !

LES GARDES DU DUC DE LORRAINE :

Ils portent une veste orange.

Pour faire simple : imprimer les développements (sur papier 160g) puis les colorier, les découper en suivant les lignes extérieures, marquer les contre-plis (CP)

Coller les personnages dos à dos, puis les coller sur la base de collage.

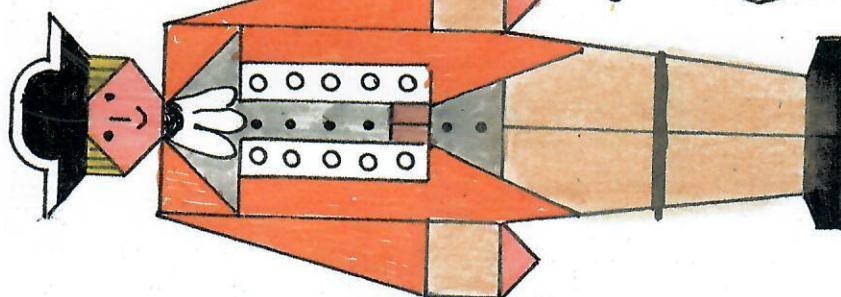

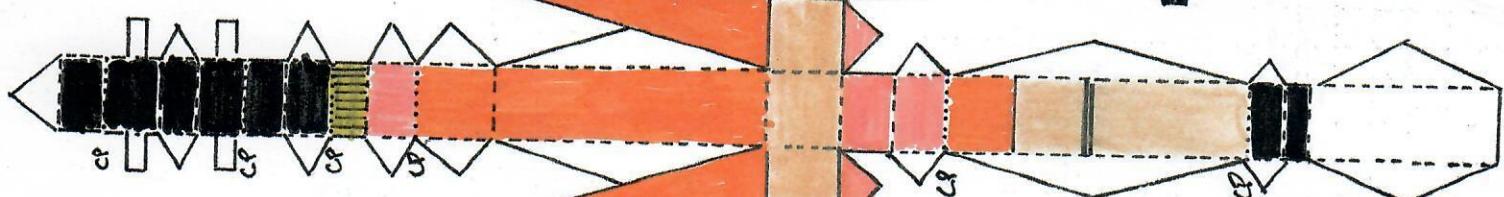

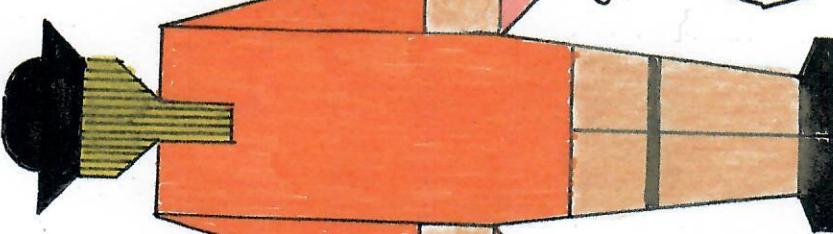

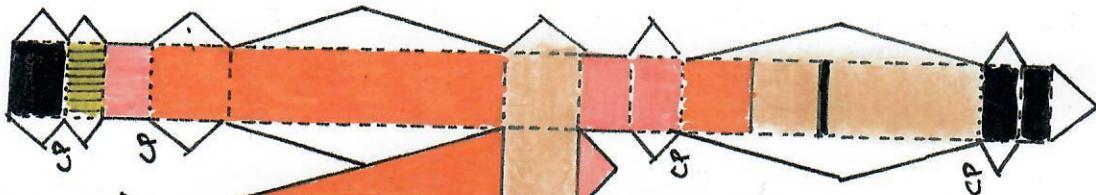

Nous vous proposons plusieurs découpages dos à dos de ce type...

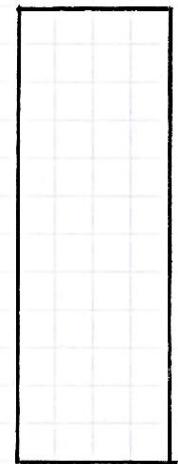

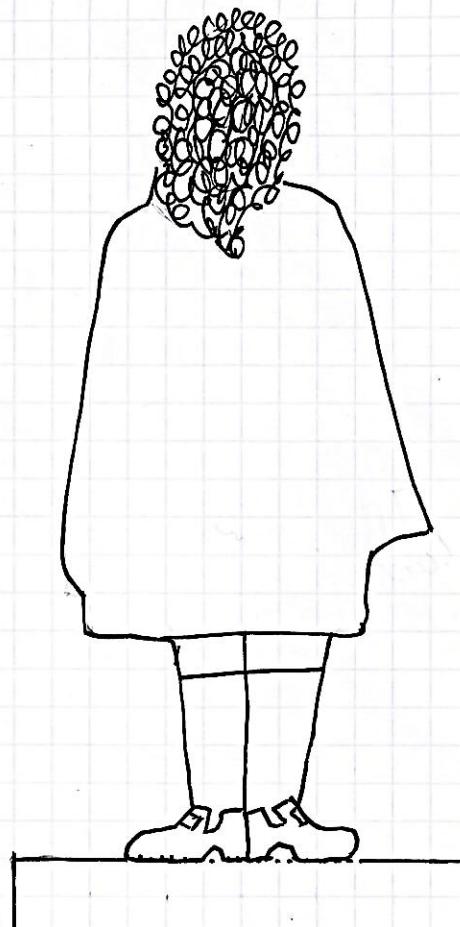

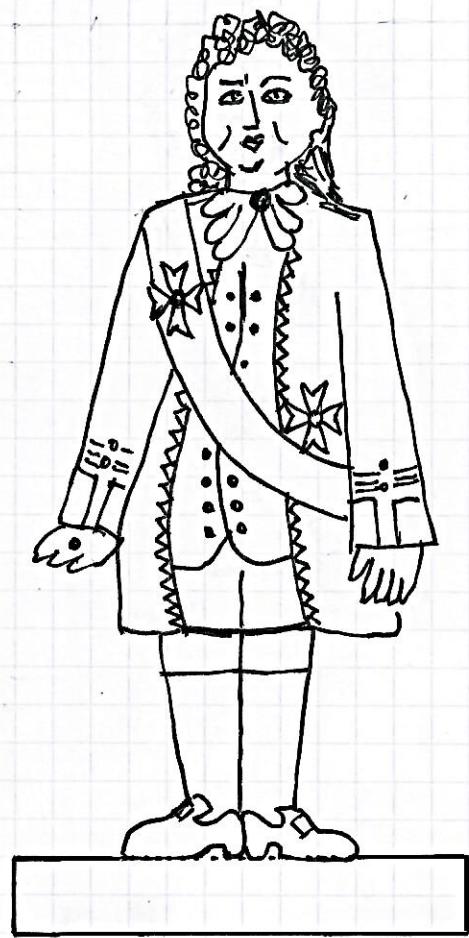

...Et d'autres en volume.

Marquer alors les plis et contre-plis.

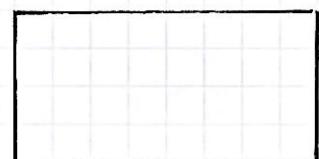

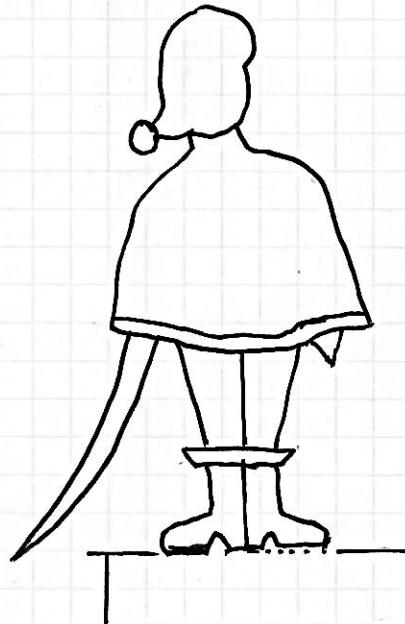

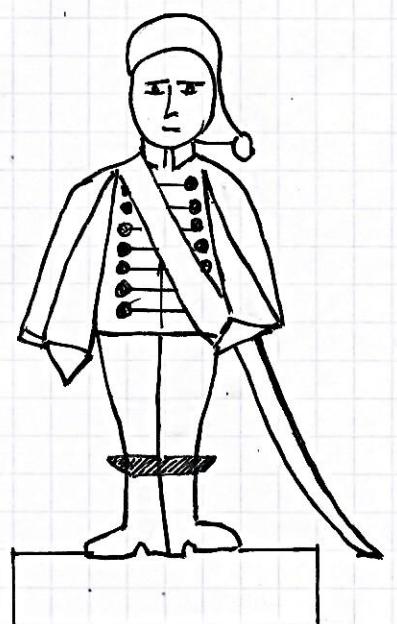

Puis coller les onglets pour obtenir des volumes.

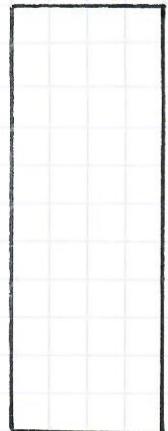

Il porte de nombreuses décos.
